1-4 Handling the optical pick-up

- 1) Place a conductive sheet on the work bench (The back sheet used for emptying repair parts)
- 2) Place the unit on the conductive sheet so that the sheet is grounded to the sheet.
- 3) Place your hands on the conductive sheet (This gives them the same ground as the sheet)
- 4) Remove the optical pick-up block.
- 5) Perform work on top of the conductive sheet. Be careful not to let your clothes or any other static sources touch the unit.
- 6) Be sure to put on a wrist strap grounded to the sheet.
- 7) Be sure to lay a conductive sheet made of copper on, which is grounded to the table.

Service Manual

(\*1) GREEN PRODUCT PROCUREMENT

The EC is actively promoting the WEEE & RoHS Directives that define standards for recycling and reuse of Waste Electrical and Electronic Equipment and for the Restriction of the use of certain Hazardous Substances. From July 1, 2006, the RoHS Directive will prohibit any marketing of new products containing the restricted substances.

Increasing attention is given to issues related to the global environmental. Toshiba Corporation recognizes environmental protection as a key management task, and is doing its utmost to enhance and improve the quality and scope of its environmental activities. In line with this, Toshiba proactively promotes Green Procurement, and seeks to purchase and use products, parts and materials that have low environmental impacts.

Green procurement of parts is not only confined to manufacture. The same green parts used in manufacture must also be used as replacement parts.

(\*2) LEAD-FREE SOLDER

This product is manufactured using lead-free solder as a part of a movement within the consumer products industry at large to be environmentally responsible. Lead-free solder must be used in the servicing and repair of this product.

**WARNING**

**This product is manufactured using lead free solder.**

**DO NOT USE LEAD BASED SOLDER TO REPAIR THIS PRODUCT !**

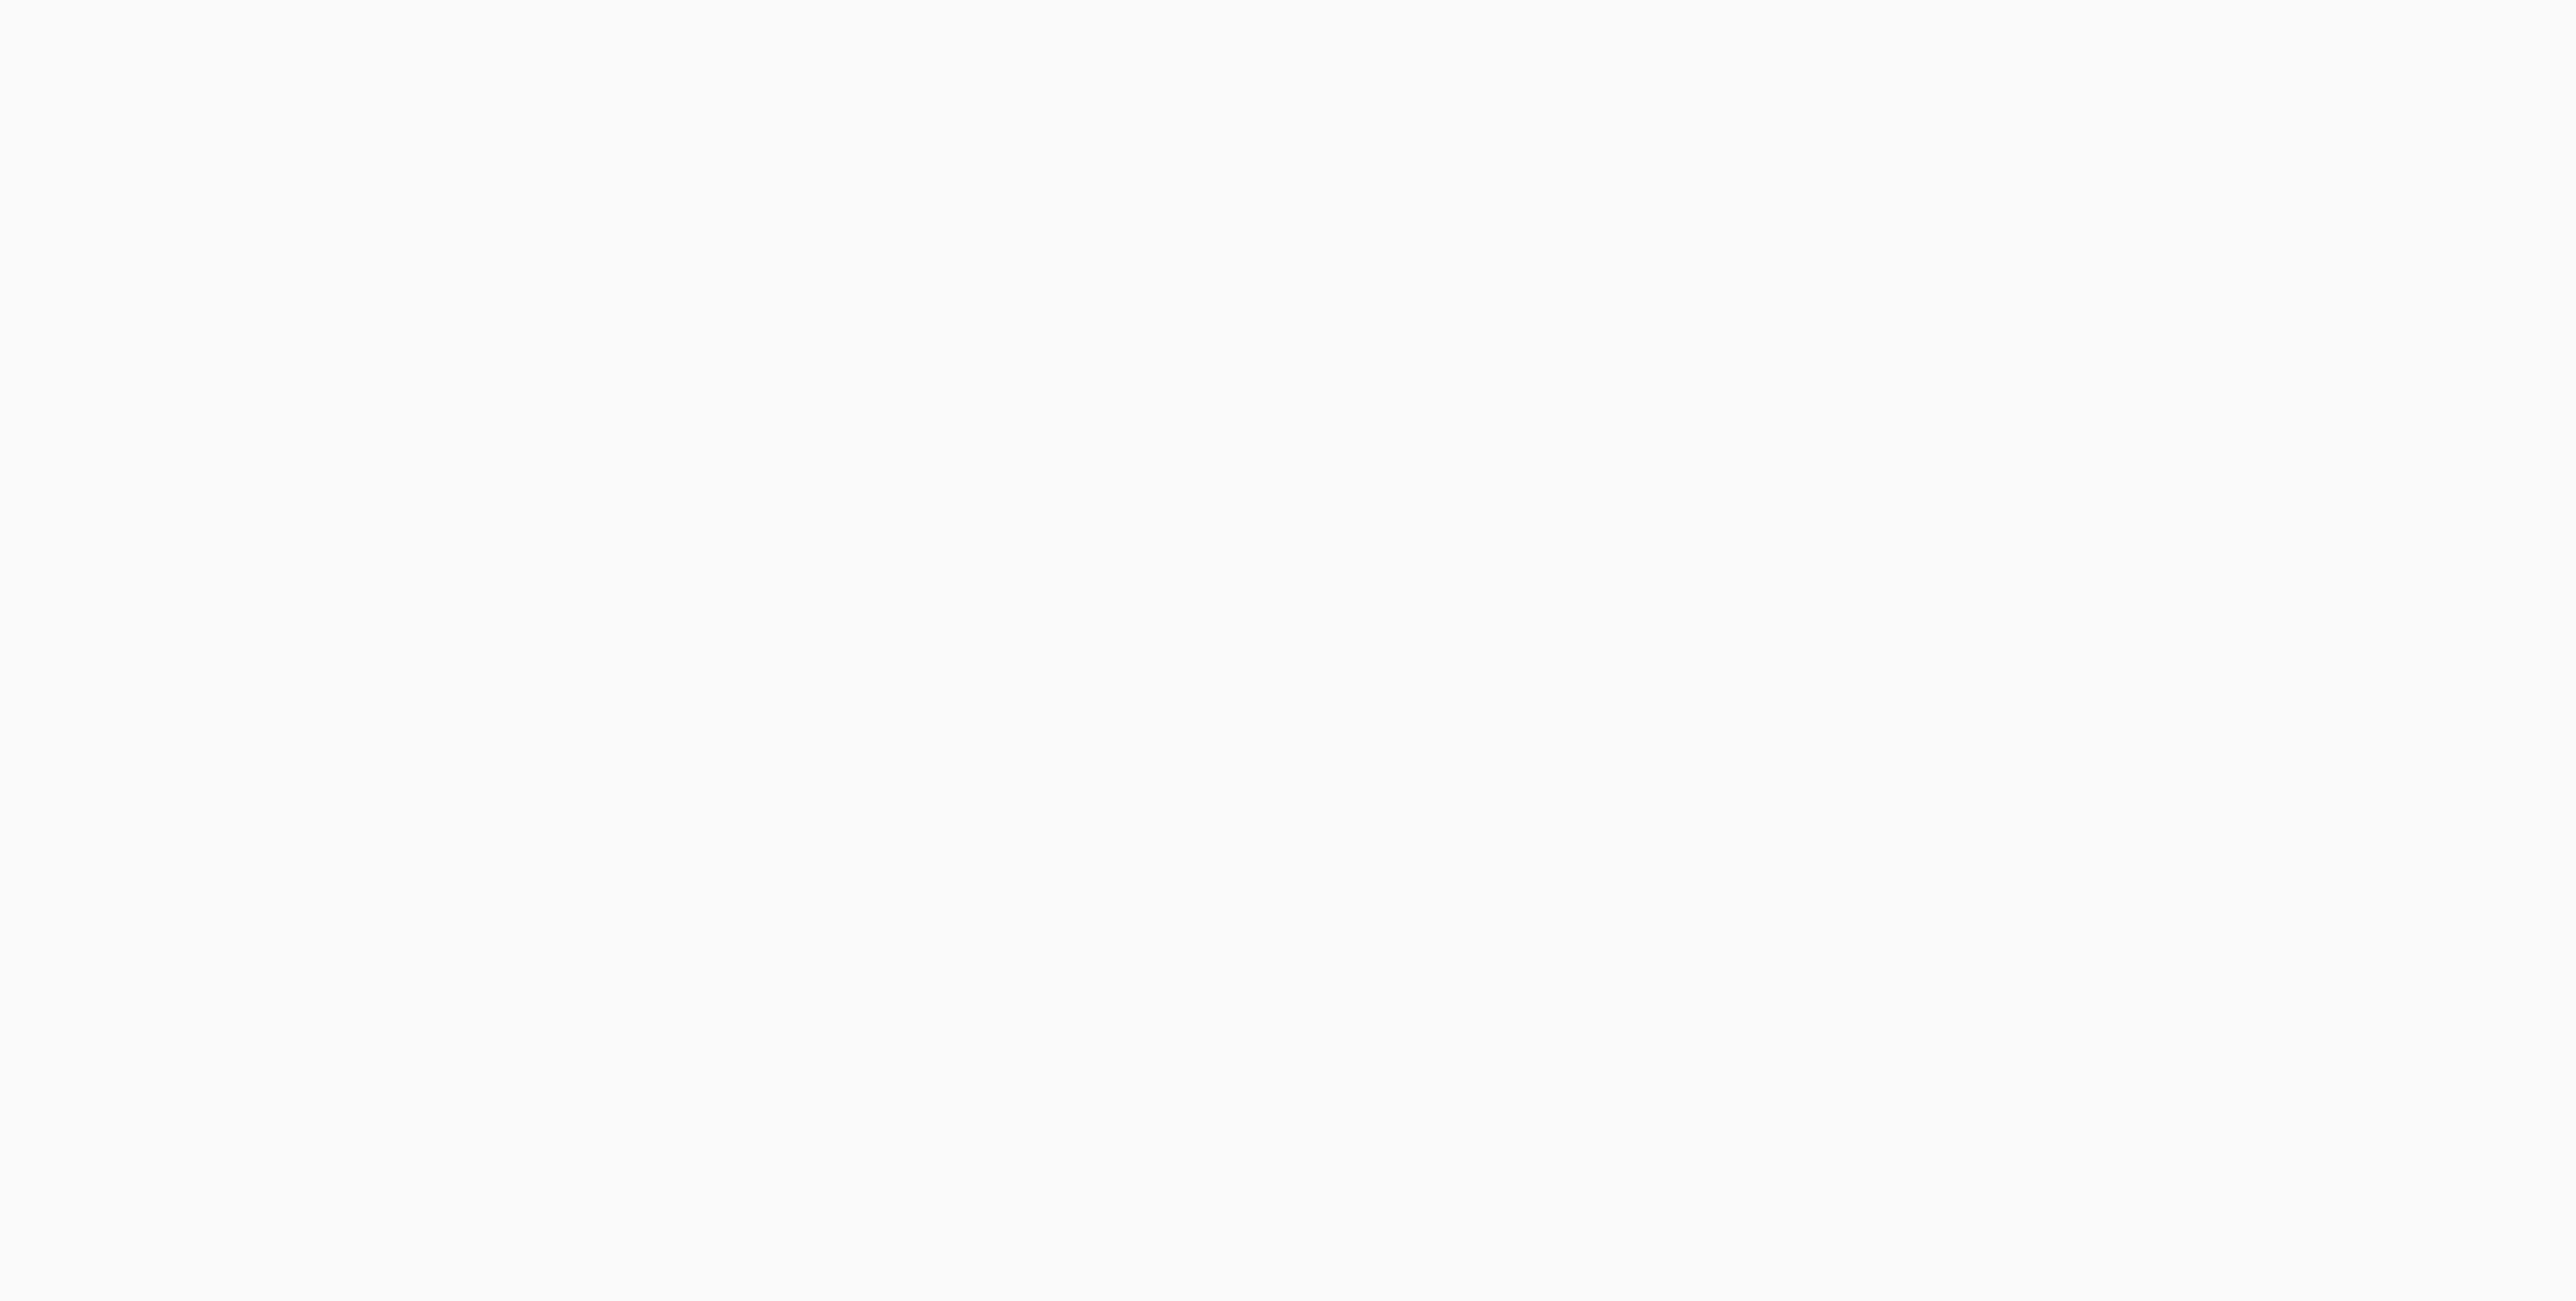

The melting temperature of lead-free solder is higher than that of leaded solder by 66°F to 104°F (30°C to 40°C). Use of a soldering iron designed for lead-based solders to repair product made with lead-free solder may result in damage to the component and/or BOARD being soldered. Great care should be made to ensure high-quality soldering when servicing this product — especially when soldering large components, through-hole pins, and on BOARDS — as the level of heat required to melt lead-free solder is high.

The company also works to empower women and fight food allergies. In 1939, a man named Leo Stefanos felt that it was not safe for his children to chase the walk down the street, so he made his own bars of ice cream and ate sold them in the area of Chicago. Some consider gum a candy. Years later, in 1986, Mars bought the Dove company, and today, it makes sweet chocolate and candy bars, so much for ice cream bars. DotsDots, the bubblegum staple of the cinema, dates back to 1945. A Today, A produced by Tangerina Confectionery. Many famous chefs have their own recipes today, but no matter who makes them, the result is a sweet like a nougat. The sweet There is a sherbet in pA with a lollipop inside that you can not dive into pA and lick it. Dew Drops Dew Drops are antiquated fruity candy with a sugary coating.
